a. Student-Course

    i. Is it the scaled score for exam grade?

20. Percent_score*

a. Student-Course

    i. Is it the percent score for exam grade?

---

analytics-enrollments-20220927235403-from canvas

1. Id*

a. Student

    i. Is it unique to each student?

        ii.   Do they recycle id?

        iii.   Is a person assigned with 2 IDs?

2. Canvas_User_Id*

    a. Student

        i.   Is it unique to each student?

        ii.   Do they recycle id?

        iii.   Is a person assigned with 2 IDs?

3. Student_Name*

    a. Student

        i.   First space lastname

        ii.   First and lastname separate column

4. Student_Email*

    a. Student

5. Listing_Id*

    a. Course

        i.   Is it the same as course number and section?

        ii.   Is it unique to each course?

6. Listing_Name*

    a. Course

        i.   Is it the same as the course name?

7. Created_At*

    a. Student-Course?

        i.   Is it the same as a student registration date for a particular course?

        ii.   Registration

            -   Registered

            -   Corerepsonds to registrated Date

8. Completed_At?

    a. What is completed?

        i.   Completed studying the modules of a course?

ii. Purchased a voucher?

    iii. Taking an exam?

    iv. Passed an exam?

    v. Voucher expired?

    vi. Duration of course offering completed?

- Corresponds to canvas_course_progress: courses

- dont care when completed, just if they completed or not

9. Student_Certificate_URL*

    a. Student-Course

        i. It's a link that takes to https://tamu.instructure.com/login/canvas to login to view certificate

            1. No need

10. Status*

    a. Student-Course

        i. Active?

            1. What counts as Active?

                ● Registering for the course only?

                ● Registering and attempting to complete modules?

                ● Voucher purchased?

        ii. Concluded?

            1. What counts as Concluded?

                ● Voucher purchased?

                ● Exam taken?

                    i. Pass?

                    ii. Fail?

                ● Received certificate after pass?

        - No need

Registrants – tees – edge – netplus || Registrants – tees – edge – secplus

1. Full_Name*

    a. Student

    b. lastName and firstname

2. Email_Address *

    a. Student

3. Company_Name

    a. Student

        i. Affiliation of a student to that company

4. Title

    a. Student

        i. Is it important to know the title of a student when enrolled as a student?

5. Registration_Type

    a. Student-Course

        i. Does it contain the information of a vendor?

        ii. Through what vendor did a student register for the course?

            1. No need

6. Amount_Paid

    a. Payment

        i. No need

7. Amount_Due

    a. Payment

        i. No need

8. Discount_Applied

    a. Payment

        i. No need

9. Continuing_Education_Credits (CEUs)

    a. What does 0 or null or any int number identify?

        - No need

10. Certificate_Issue?
    a. Certificate
        i. Null? What does null mean?
            1. Is it missing data?
            2. Does it mean that the student is in the class but has not received the certificate yet?
            3. Does it mean that the student's voucher has expired?
            4. Does it mean that the student dropped the course?
        ii. Date?
            1. Does it only mean that the certificate issue date is for a particular course to a student who has been granted certificates?
                - No need
11. Participant
    a. What does "Yes" mean in the Participant column?
    b. What does "No" mean in the Participant column?
12. Reference_ID
    a. Vendor?
        i. Is Reference_ID connected to the vendor?
        ii. Is there a relationship between vendor and reference_id
        iii. dont care about this field
            - No need
13. CC_Email_Address
    a. Vendor?
        i. Is this connected to the vendor?
        ii. Is the email unique to each vendor?

        iii. Does the vendor offer courses?

        iv. Do vendors bring students or do they offer courses?

            - No need
